

**d** Registration requires the provider to demonstrate that they have an infant toddler first aid/CPR certification, and that no adult (15 years or older) regularly in the home has their name on the Central Registry for Abuse & Neglect or is required to register as a sex offender. A felony background check must be done for all individuals 15 years and older who reside at or will be present on the premises on a regular basis. Providers must have proof of \$300,000 liability insurance.

**e** By Health Department policy, this ordinance is not intended to restrict the periodic use of babysitters caring for the children of one family. It is intended to regulate homes, which are regularly caring for children from multiple families.

**f** Child care givers planning to start a new business will need to comply with the requirements before they begin.

**g** As part of the application fee, day care providers will be provided educational information and training opportunities to meet the training requirements.

**h** If you have more than six children in your child care home, there may be conditional use permit zoning requirements. For more information, contact the Zoning Office at 367-8254.

**i** If you have any questions regarding the regulations, contact the Sioux Falls Health Department.

Day Care Home Ordinance

## Sioux Falls City Family Day Care Home Ordinance Requires:

**A** Any home where care is being given for 12 or fewer children for any form of compensation is required to register with the Sioux Falls Health Department. Day cares with more than 12 children are regulated by the State of South Dakota Department of Social Services.

**b** Parents should be looking for evidence of registration which is a certificate that should be in a location readily visible to parents utilizing the home for day care.

**C** Parents with concerns regarding their home day care may call and register a concern with the Sioux Falls Health Department at 367-8760.
