Business Owner/Contact Information:				
Building Owner/Contact Information:				
The City shall not issue a fire pit installation permit unless the applicant is found to be in compliance with the following:				
Item(s)			Inspecto	or Date
Fire pit shall be constructed to avoid being tipped over, but not permanently affixed to the public right-of-way.				
Natural gas line shall be installed under the public right-of-way to the natural gas fire pit in compliance with SDCL 49-7A.				
Fire pit shall be at least 10' from the adjacent business and must be 2' from any furniture or other objects set forth in Chapter 117.				
Natural gas fire pit shall be protected from all motor vehicles using affixed concrete bollards, concrete planters, or similar devices in conformance with the City's streetscape standards.				
A natural gas fire pit emergency remote shutoff switch shall be located in the immediate area of the natural gas fire pit and be accessible to the public.				
Natural gas fire pit shall be installed with an "on" and "off" switch in a secure location within the applicant's business.				
Open flame and heat outlets must maintain clearance to all combustible materials and fire sprinkler heads.				
Installation of the natural gas fire pit conforms to all City fire, mechanical, and engineering requirements and manufacturer's specifications.				
Required submissions (<i>please attach</i>):				
 A description and schematic drawing showing the dimensions of the site and the typical placement of all objects on an 8.5" x 11" sheet. O Show dimensions of fire pit, site, pedestrian pathway, and adjacent building. O Show all other items placed in proximity to fire pit. O Show existing objects. O Show delineation of site. Proof of required insurance. Peddler's license (if required). Payment of \$35 application fee. Placement of fireplace in furniture zone. Additional submissions as required. 				
Statement of Application and Hold Harmless. I,
